EXPERIENCE

APPLE INC.

HANOVER, NH

CAMPUS REPRESENTATIVE – LEAD ACCESSIBILITY PRO

MARCH, 2018 – PRESENT

- Manage team of fifteen other campus representatives at colleges and universities nationwide on application based projects. Work closely with Apple authorized campus stores to ensure positive revenue growth. Ranked in top 10 out of 60 representatives nationally.
- Identified Accessibility Services as a new strategic area for Apple expansion on college campuses. Created programs to increase awareness of the capabilities of Apple's operating system for those with learning disabilities. Shared Accessibility programs and progress at national Campus Rep Conference in front of the Apple Education team in Cupertino, CA.
- Lead Apple integration initiative for Tuck School of Business faculty on semester abroad programs. Presented workshops and seminars to Tuck professors on how to better utilize Apple technology for business while abroad.
- Collaborate with and present weekly workshops to the Center for Professional Development, Student Accessibility Services, Academic Departments and student groups to teach them how to better utilize Apple technology and Apple's operating system.

DARTMOUTH APPLIED LEARNING AND INNOVATION (DALI) LAB

HANOVER, NH

PRODUCT MANAGER & UI/UX DESIGNER

APRIL, 2019 – PRESENT

- Selected to lead UI/UX app design group for projects outsourced from Boston and New Hampshire based companies.
- Designed mobile app and customer loyalty rewards program utilizing Figma software for 6AM Health, a Boston based health food company. Reduced user friction and decreased timing of the customer order process by 45%.
- Managed 6AM Health design team by overseeing the project's timeline and collaborating with Developers to program working products.
- Created, designed, and managed Mission Countdown, an app experience that connects young children with their deployed military parents. Project recognized and published in Prototypy.

TUFTS UNIVERSITY BIO-MEDICAL TISSUE ENGINEERING LAB

MEDFORD, MA

BIO-MEDICAL ENGINEERING RESEARCH INTERN

JUNE, 2015 – AUGUST 2016

- Selected to take part in Biomedical Engineering Research Scholars Program Internship under Dr. Kaplan, Dr. Black and Dr. Chen.
- **Biomaterial Lab** - Collaborated and assisted with research team on small intestine tissue engineering using silk as a biomaterial.
- **Scanning Electron Microscope Lab** – Asked to return a second summer to assist with high level cell adhesion and electron microscope imaging.
